Forward to Govt (as enquired)
for such orders as they
may be pleased to pass in
the matter
30/10/1900

Government with my letter no
4 dt 7 February 1899, in which I
the direction of Government to the
grant of a loan of Rs 5,000/ to the
Municipality to enable it to give to
the congested parts of the town and to
provide the same with proper drains
In G.O. no: 115-H1-50 / 27262-96 dated 14 dt M
1899, I was asked to put my applica-
tion for the proposed loan of Rs 5,000
in proper form with reference to the
conditions laid down in the above
and that was done. My attention was
at last directed to G.O. no: 910 / 27262-96 dated
21 dt July 1900, stating that, under
existing and prospective financial
conditions, it is not feasible for the
State to finance any loans to Municipa-
lities for sanitary purposes.

Such a course is unfortunately
tion of municipalities which is near the

The Lyndal river and is known as Hilladakere requires to be removed altogether at the earliest opportunity possible. There are also other congested parts which require to be opened out. The town stands in need of proper drainage. As this is a town largely resorted to by various classes of people from distant countries on pilgrimage, it is absolutely necessary that it should be kept in a healthy and sanitary condition. To effect all these, the Municipality has no means. It has still to repay nearly Rs 16,000 to Government, lent for water works and other improvements

I request you will be good enough to grant Rs 5,000 from Plague Funds to carry out the said improvements.

I have the honor to be
Sir,
Your most obedient servant

Enclosure No. 3

Furnishing further information on the Sanitary improvement of Nanjungade

Vol. II
Roll 272 — 74
74-4/1-2

OFFICE OF THE
LOCAL FUND BOARDS, M

Enclosure no.: Three.

No. 728

Dated 31st January 1901

From

The President,
Local Fund Boards,
Mysore District.

To

The Secretary to the Government of Mysore,
Revenue and General D

SIR,

With reference to G.O. No 7605-7-L.F. 176-94 of the 1st Decr. 1900, calling for further information in regard to the grant of Rs 5000 for Sanitary improvement in the town of Nanjungude, I have the honor to state that the Sanitary Superintending Engineer was requested to favor me with his opinion on the subject. He inspected the town in December 1900, and marked out in the enclosed plan of the town the roads and lanes proposed to be opened out by removing Conjestion. The roads thus marked out are thirty

in number, and to acquire all the houses that come in the way will cost Rs 9,710 as compensation But as funds are limited, the Sanitary Superintending Engineer proposes to begin with the worst portions, viz, blocks No: 11, – 12, – 13, – 20, – 10, – 1, – 15 and 30 as shown in the plan at a cost of Rs 5, 980. A detailed statement showing the number of houses proposed to be removed in each block above referred to is herewith submitted.

2. With regard to the removal, as suggested by Dr. Arunmugu. Modaliar, of all the houses situated on the left bank of the Gundal river known as Halladakere, I beg to state that they are included in block no 15 shown above The other congested parts to be opened are also given in the Statement referred to in para 1.

3 With regard to the drainage of

the

the town, the Sanitary Engineer is of opinion that the opening of the cross lanes will allow the flow of storm water towards the natural outfall, the river, and prevent the pooling of water in the back-yards which is the principle cause of unhealthiness. Copy of this docket No $\frac{99}{46}$ dated 8.1.1901 is enclosed.

4. Under the above circumstances, I beg that the Government may be pleased to sanction the grant of Rs 5000 from Plague Funds as requested in my letter no 872 of the 27th Oct. addressed to the Plague Commissioner and quoted in the Government order under reference. As this is the best season to carry out all the improvements, I request early orders of Government on the subject.

I have the honor to be
Sir
Your most obedient Servants.

Thro. The Chief Engineer
of Mysore

Dated Bangalore 4th } 7 January 1901.
Despatched 4th }
Received

General No. 99
No. 46

Enclosure No. Two

Referring to his no 176
of 6-12-00 forwarding for opinion
Government's orders
no: 7605-1
x-7-176-94 of 1-12-00 regarding
the sanitary improvements
to Kunjunagere Town.

Herewith I have forwarded
a rough sketch plan of the
town showing the additions
and improvements carried out to, remodelling, division
and provide access to the
backyards of houses for
daily conservancy purposes

to be removed have all been marked in the presence of the Umeedar on each house and backyard and a statement of their measurement and approximate compensation to value of claim is forwarded. The houses to be removed in Hallandakere have also been included in the Statement. The amount of compensation comes to nearly Rs 10,000/; but as funds are limitted, a begining may be made with the worst portions which are blocks Nos. 11-12-13-20-10-14-1-15 and 30 on the plan and the Cost of this will be under Rs 5,000/-.

2. As regards the drainage, the opening of the cross lanes running North and South will allow the flow of storm water towards the natural outfall, the River, and prevent the pooling of water in the backyards which is the principal cause of unhealthiness.

(Sd) C. Lindish Lee
Superintending Engineer
Sanitary Works.
